

## CO 82 Independence Pass Chip Seal Project

15-minute delays anticipated

### Project Overview

The Colorado Department of Transportation and contract partner Elam Construction of Grand Junction will begin a chip seal project on CO Highway 82, east of Aspen, from Mile Point 47.8, to MP 61.2, Independence Pass Summit. Work will consist of asphalt patching, chip seal application and pavement markings. The chip seal application will help protect and extend the life of the underlying pavement and provide skid resistance and reduce overall cracking.

### Project Schedule

- The project is set to begin mid-July.
- Work is expected to last through mid-August.
- Normal working hours will be Monday through Friday from 7 a.m. to 7 p.m.

### Travel Impacts

- There will be one-lane alternating traffic guided by pilot car.
- Delays up to 15-minutes can be expected.
- Full closures will take place along the full length of the project, from MP 47.8 to MP 61.2.
