DON'T GUESS- TEST

JANUARY IS RADON ACTION MONTH!

Radon is an invisible, odorless gas that comes from the natural breakdown of uranium in soil and rock. It can seep into homes through small cracks and cause serious health effects.

Homes in Colorado are at higher risk – nearly half of tested homes in the Roaring Fork Valley have elevated levels.

The only way to know if your home has radon is by testing!

This January, Pitkin County and the City of Aspen are offering free radon test kits for pick-up at their locations. Get yours today!

ASPEN CITY HALL

427 Rio Grande Pl.

Community Development | First floor
