

## City of Aspen Grants Program: Cultural Vibrancy Fellowship

### Grant Intent

This fellowship aims to further enrich Aspen's cultural environment by enabling community connection and providing opportunity for artistic growth.

### Overview

This fellowship stimulates cultural vibrancy in Aspen through the direct support of local artists. This grant provides funding to local artists for their creative pursuits and fosters relationship building within the artistic community.

Local artists are important, and their work positively contributes to the community and culture of Aspen. This grant encourages these contributions through monetary support to adult artists who need it to further their career, creative practice, or pursue innovative ideas. There is a parallel youth grant to provide monetary support to further their skill and exploration of art. Along with the funding, recipients will participate in convenings intended to foster sharing, learning, and relationship building. Additionally, grantees are expected to make their own personal contribution towards Aspen's cultural collective.

This fellowship is an important part of fostering a network of support, growth, and celebration of Aspen's local artists. The required grantee convenings will be facilitated by a seasoned artist that will guide conversations along agreed upon topics such as: sharing and critiquing of each other's artistic work, items important to career or business development, issues facing working artists today, or pertinent discussions in art. Youth recipients will meet separately with an appointed artist facilitator and discuss topics relevant to their group. The convenings are intended to be a safe, welcoming, and enjoyable space for the recipients to get to know each other, share, learn, and grow together.

This grant will provide **up to \$4000 in funding to up to 12 adult artists** and **up to \$750 in funding for up to 10 youth artists** to support artistic pursuits such as, but not limited to: developing a project, buying relevant supplies, education, rehearsal space, marketing or growing their creative business, and other such efforts to support their creative pursuits.
