

Memorandum of Policy

Building Codes

From: Mike Metheny

Date: March 11, 2019

Revised:

Date: March 11, 2019

Subject: Accessible Routes in Type B Units

It is the policy of this jurisdiction that when an accessible route to an exterior roof deck or similar space in a Type B Unit is required by the International Building Code, the installation of an accessible route to that level may be waived upon a written request to the Chief Building Official from the applicant. The plans and construction shall contain provisions in the framing and electrical systems to accommodate the installation of the required route in the future.
