

BACKFLOW PREVENTION

- ✔ Required by state and federal law
- ✔ Required by state and federal law to be tested annually
- ✔ Keeps drinking water clean and safe for you and your neighbors

Cross-Connection

An actual or potential connection between a potable water supply and any non-potable substance or source.

Backflow

The undesirable reversal of flow of water or mixtures of water and other liquids, gases, or other substances into the City's water system.

Backflow Prevention Assembly

Any approved assembly used to prevent backflow into a potable water system.

COMMON CROSS-CONNECTION EXAMPLES

These common household and commercial connections to the public water system pose a threat to our clean water if not protected by the appropriate Backflow Prevention Assembly.

-  Irrigation Systems
-  Fire Sprinkler Systems
-  Hose Bibs

Certified Cross-Connection Control Technicians for Backflow Inspections
